Based on above details provided patient and her husband have been counseled in detail about:

☒ Short Term Outcome. ☒ Long Term Outcome. ☒ Sequelae.

Based on the information and counseling received, we have decided:

- ☒ Provide all possible care for our baby after birth.
☐ We would like to deliver the baby in best possible condition, allow neonatal evaluation after birth and decide on further course of action based on evaluation.
☐ We do not want any aggressive management of the baby. We would like everything to be done in the best interests of the mother.
☐ We do not want any aggressive management of the baby including no aggressive obstetric interventions.
We decline further fetal evaluation including fetal heart monitoring. We understand that this may lead to stillbirth.
